Malcriado,

Enclosed you will find;

- 1) First editions of the two books, HUELGA and BASTA. Along with them are a few of the uncut pages of both editions.
- 2) Also included are copies of the early Malcriado, both in English and in Spanish, through the years 1965 - 1970. There are about 20 to 30 copies of each issue, so if you wish, you may send some of the copies to our archives in Wayne State University.
- 3) And please take special note of the box with the stars on the outside. This box contains the only copies left of the early issues in the year 1965. They are very rare, so please take particularly good of them.

Viva la Causa!
